#### Iowa Avenue M. E. Church Sunday School Observes Anniversary.

The Iowa Avenue M. E. Church Sunday school, which was organized one year ago in a tent by Dr. John W. R. ### Criticising the Court.

To the Editor of The Star: Will you give me space to express dissent from some of the views stated in the editorial appearing in your Sunday issue, entitled "Respect for the Court?" In this editorial, while conceding that "strictly individual criticisms of citizens" of court decisions are not likely to inflict that the judgments of the Supreme Cour should be accepted as final, especially when those judgments involve constructions of the Constitution, and inferentially at least, you deprecate public crit-

icism of all the determinations of that "ultimate source of judicial authority." I venture to suggest that this is not a sound position to take. In this country, more than in any other, is it vitally essential to the public welfare and safety, the hands of the courts. For it must never be forgotten that it is within the power of a single justice of the Supreme Court, by the vote he gives in the determination of a case in which there is an equal division of opinion among his colleagues, to defeat the nation's will, perhaps but recently expressed in a congressional enactment, which this justice declares is unconstitutional. And the power to do this, it should also be remembered is one assumed by the court, for it has never been expressly conferred upon it Again, historically considered, the reverse of what you advise has been the course in this country and in England, reforms. What more passionate outburst Supreme Court, when its decision in the the dining room. Dred Scot case was announced?
